Metodologie e Tecnologie innovative:  
ricerca, assistenza, industria  
per una formazione di eccellenza

*30° Corso di Laurea in Odontoiatria e Protesi Dentaria*

**Chieti**  
**21-23 Aprile 2010**

Sotto l'Alto Patronato del Presidente della Repubblica

Non si può programmare il futuro se il presente non viene fatto proprio con disincanto ed accolto da tutti come responsabilità collettiva.

Per questo il Congresso Nazionale dei Docenti di Scienze Odontostomatologiche in collaborazione con:  
la Conferenza Permanente dei Presidenti dei Corsi di Laurea Magistrale in Odontoiatria e Protesi Dentaria,  
la Conferenza Permanente dei Presidenti dei Corsi di Laurea in Igiene Dentale,  
la Conferenza Permanente dei Direttori delle Scuole di Specializzazione in Ortognatodonzia e Chirurgia Orale,  
i discenti che frequentano i Dipartimenti e le Cliniche Odontoiatriche delle Università  
E' il Congresso delle sinergie per definire un patto di crescita  
E' il Congresso del confronto per una didattica di eccellenza  
E' il Congresso degli uomini liberi capaci senza condizionamenti di mettersi continuamente in gioco per trasformare i problemi in opportunità  
E' il Congresso in grado di stimolare le energie migliori nel rispetto degli interessi comuni ed al servizio della comunità  
E' il Congresso del disincanto ma anche dell'utopia per dare nuove concrete speranze a tutti i giovani che hanno il coraggio di battersi per un futuro diverso.
